ORDER

The court received plaintiff's Request for Default stating that the December 20 Order denied the Government's partial motion to dismiss. The Order was not intended as a ruling on dispositive motions, rather it was a request for more information and for the parties to choose a date and time for a status conference. The plaintiff's Request for Default is denied. All parties will appear before the court on February 12 at 2:00 pm EST at the Court of Federal Claims for a status conference. Counsel may appear in person or by telephone.

SO ORDERED.
